

MGM International
Multiplying Leaders for the Great Hispanic Harvest

News from Allen and Bella Lund

February 2018

Our Friends:

Thank you for giving us the privilege to communicate God's saving grace and eternal truths through preaching, teaching and practical hands-on projects. Our Spanish church where we are members in Greenville, SC, sent out its first official team of workers to provide relief to two churches and one Christian school greatly affected by the hurricanes that swept through Puerto Rico. Beyond the physical work, God worked to encourage our fellow brethren, many of whom, years before had helped our church during the construction process. How exciting it is to see God produce blessings from our investing in His work.

Classrooms devastated by the storm

sent by churches in
Tennessee**

A week after returning from Puerto Rico, Allen headed to Mexico to teach a course on financial stewardship at Alpha and Omega Seminary. This was an intensive 25-hour block class from Monday to Friday. We had a combined group of 27 students for the course from ninth grade high school to those completing their last year of seminary studies. Besides these students, all the faculty and one veteran missionary completed the course. It was impressive that, even with the varied ages, all the students benefited from the course. The director, Benito Hernandez, is doing a fine job training these young people to learn and apply God's Word to their lives. I personally believe that after their training these students could be sent out to serve the Lord any place in the world and survive very well!

Allen teaching Stewardship course

In addition to directing the school, Benito pastors the church in Chapulhuacan. God gave Allen the privilege to preach five times there and a few hours from there for Pastor Cornelio. We have known both Benito and Cornelio from almost thirty years ago when we were students at Bob Jones University. What a joy to see how God is using these friends for His glory in their home country of Mexico. The brethren of these churches responded very favorably to the preaching. Allen was overwhelmed with the incredible generosity of our brothers and sisters in Mexico. God is truly doing a wonderful work with our "southern" neighbors. Pray with us as we partner with Hispanic believers in the US and in Latin America.
