Multiplying Leaders for the Great Hispanic Harvest

News from Allen and Bella Lund

November, 2020

Dear Friends:

We praise the Lord that after months of closed borders for travelers, Costa Rica has opened its borders to receive visitors from the US. Seizing this opportunity to be an encouragement to pastors in the western region, we have an exciting project planned during the month of December in Costa Rica. Stephen was one of my students in the seminary and now pastors a church in that western area of Costa Rica. Our goal is to work shoulder-to-shoulder with this young pastor to boost his spirits and the people he is seeking to reach and disciple.

Our task will be to coordinate and perform the groundbreaking for a basic outreach/training center for the young people in their community. Stephen has teamed up with his father-in-law pastor to develop this outreach as an extension of their church ministries.

The project involves securing the property and erecting a metal roof and cement floor. Our prayers are to help Stephen rally helpers to assist in this challenge to lead others to Christ and to live productive lives. Pray with us that God would “stir the waters” and cause a ripple effect to encourage other pastors in that area and throughout Costa Rica. Diego is another seminary graduate and pastors a church about twenty minutes away. Lord willing, we will be connecting with him and seek to be a blessing to him during our time in Costa Rica.

Thank you for working hand-and-hand with us as we use our hands for Him,
Allen Lund
