Multiplying Leaders for the Great Hispanic Harvest

News from Janine Fox

January, 2021

Dear Friends,

I am thankful for this past year and all that God has done. Although it was a hard year for many, it has been a year full of blessings for me. My support was increased, I got to spend some extra time with family during the months of quarantine, I got to teach from the comfort of home (both my USA home and my Mexico home), and God has blessed me financially and allowed me to rent an apartment in Hermosillo from wonderful renters who go to the same church as I do. In the midst of a global health crisis, I have somehow managed to stay healthy so far. I have been extremely blessed, and I do not deserve any of it.

This past semester, I have been able to continue helping at the mission church in Tres Reinas and Emanuel Baptist Church in the center of Hermosillo, keeping our distance and wearing masks. In order to comply with government regulations, we have had services outdoors at Tres Reinas. God has blessed the two Bible clubs that were started in the Tres Reinas area these past few months, and many children have been coming to church on Sundays as a result. So far no one in the congregation has gotten seriously sick. Please pray for their families to come as well, and for God to add more faithful families to His church, including Lorena, a lady I got to witness to, who is the mother of one of the kids who has been faithful to Bible club on Saturdays and church on Sundays. She seemed interested in the Gospel when I shared it with her, but was unwilling to make a decision yet. I have not yet had another opportunity to talk to her.

Classes from preschool through high school will continue to be online this semester, until we get a "green light" indicating that the number of cases is low enough for children and young people to attend school. High school classes have already started up again, earlier this year to make up for the late start in September. Junior high and elementary start next week. I am continuing to teach English to junior high and high school. Please also pray for the finances of the school, as there has been a lower enrollment this year.

Have a blessed and happy 2021!
